The Wichita Eagle.

SHALL WE MANUFACTURE?

To the Editor of the Eagle : I see in last week's Eagle that som one wants a committee to look after the it, not so much for the sake of profits as for the sake of the recreation and manufacturing interests of Wichita. The communication is signed "C." Perhaps a majority of the people do not favor manufacturing. Too many are like our wheat buyers, intent only in gathering in the dollars at the present regardless of the future prosperity of the city. Probably everybody except Grismore and his few disciples would be glad to see capital invested here, but many wouldn't spend any money for it. Such a committee must necessarily spend time and money, and would it not be best first to learn if the people care enough about it to do this. The time has come when we must decide promptly whether this is to be simply a promptly whether this is to be simply a county seat with a local trade or a town ers have done and are doing. Learn Hartford Fire Ins. Company " whose influence will be felt in all the which are the most difficult points, such country west of us. We have had every advantage and have a better prospect now than any town in this part of the State, but yet this is only a country with confidence and work intelligently. town, and it may be that our continued success has made us so indifferent that some other town with more enterprise and forethought will use every means to induce manufacturers to locate, and we will have to buy of their wholesale houses and manufactories. Kansas has built and now supports one town worthy the name of city, yet Missouri has all the honor. Leavenworth, Lawrence, Atchison and Topeka are and always will be but tributaries. Kansas will soon support a large population, and there will be not only many towns as large as Wichita, but there will be large manufacturing towns, and railroad centers. We of the Arkansas valley will not always send to Kansas City for the manufacturing towns, and railroad centers. We of the Arkansas valley will not always send to Kansas City for the manufacturing towns, and railroad control of the cellars are banked up tightly in the fall. No ventilation is provided for, and the only the control of the cellar of the cellars are banked up tightly in the fall. No ventilation is provided for, and the only the control of the cellar of the cellars are banked up tightly in the fall. No ventilation is provided for, and the only the control of the cellar of the cellars are banked up tightly in the fall. No ventilation is provided for, and the only the cellar of the cellars are banked up tightly in the fall. No ventilation is provided for, and the only the cellar of the cellar of the cellars are banked up tightly in the fall. No ventilation is provided for, and the control of the cellar of t the name of city, yet Missouri has all city is over two hundred miles from the why we should pay freight on hundreds rado, Arizona and New Mexico will and then if his children sicken and die, build hundreds of miles of railroad, and he blames the weather, or murmurs and he blames the weather, or murmurs and mining towns will spring up dependent near the Arkansas river a city as large as Kansas City is now. In Colorado, New Mexico and Arizona mining is the chief employment. In Kansas, Nebraska and the Indian Territory agriculture Record and Farmer. will be followed by the majority of the people.
